General comments

TERM-I

"Shaswath is a sincere and composed child who completes his work neatly and with clear understanding. He listens attentively in class and shares his ideas with confidence. His curiosity and quick grasp of concepts highlight his potential as an enthusiastic learner. With regular reading practice, he will continue to make excellent progress. We wish him the very best for Term 2!"

CIS Vision

Our vision is to provide a happy, caring and stimulating environment where children and teachers will recognize and achieve their fullest potential, so that they can make their best contribution to society.

CIS Mission

The school strives to be a community of open-minded global learners. All members are the flag bearers of the peaceful world and care about one another, value and respect intercultural and individual differences. Thereby encompass the learner profile of collaboration and creativity by engaging in challenging skill-based competencies, extend the boundaries to maximize the potential of the learners.

Principal's Message

Dear Parents,

As we conclude Term 1, it gives me immense pride to reflect on the hard work, resilience, and growth demonstrated by our students. This term has been a journey of learning, exploration, and achievement-each step contributing to their holistic development.

Report cards are not just a record of academic performance but a reflection of effort, progress, and potential. I encourage you to celebrate your child's strengths, guide them through challenges, and nurture their curiosity as they continue their journey this year.

One significant step we took this year was the introduction of student portfolios, aimed at providing a more comprehensive view of each child's learning journey. These portfolios allow students to reflect on their progress, showcase their efforts, and take ownership of their growth both academically and personally.

We remain committed to creating an environment where every child thrives academically, socially, and emotionally. Together, let us support them in building a strong foundation for lifelong learning.

Warm regards,

Aruna Muddana

General comments

TERM-II

"Shashwath's a sweet and active kid who's doing great in reading and math! He's confident reading short sentences and comprehension passages, and can do basic addition and subtraction. He's also got good general awareness, knowing some Indian states and the Seven Sisters. He's improved a lot, even finishing his lunch with a smile! With a bit more encouragement, he'll be speaking in front of groups like a pro! Wishing him all the best for Grade 1! "
