Homeroom Teacher Comment	Teacher Name: Priyanka Gupta & FARZANA BEGUM
Avani is a confident learner and can express herself clearly in class. She follows the instructions in class diligently and works productively in groups to get the tasks done. She shows eagerness in helping her peers whenever required. Following are subject specific comments - Maths: Avani is a hardworking and a committed student. She is an active participant in class discussions. She is appreciated for clarifying her doubts promptly. Her hard work reflects in her assessments and homework. She has a good command in all the topics covered in Term 2. She is advised to do more practice on mixed questions on Factorization since it is a new topic and she needs to develop a strong grasp on the same. . English: Avani is a dedicated and enthusiastic learner who is actively involved in the discussions of the class. She is always present in the class on time. Avani has a good understanding of units from the texts; her essays are always an interesting read, and she makes use of evocative language to make her writing engaging. She could however work on her spelling. Physics: Avani continues to be an active learner in term 2 as well. She enjoys learning concepts beyond the grade level. Her responses show that she has a good understanding of the concepts being taught. One suggestion for her is to pay attention to the scientific vocabulary being taught in each of the units and apply it appropriately in her responses. Hope to see her continue with the same passion for scientific inquiry in grade 9 as well. Biology/Chemistry: Avani is an inquisitive learner who is keen to learn scientific concepts. Regularity in work is truly appreciated. She participates enthusiastically in class discussions and she shares her thoughts in class. She has a habit of taking running notes during classroom learning. She shows keenness in performing experiments and tries to understand the concepts by carrying out investigations. She explains her answers with illustrations and follows the instructions given during class activities. She takes the feedback positively and works on it accordingly. Working with the same consistency will help her in accomplishing the tasks with more ease. Social: Avani has shown immense interest and enthusiasm in Social Studies in this term. Being an active listener, there has been a steady advancement in terms of her learning the subject. Her work is neatly presented which makes it a pleasure to go through. She is proactive in taking suggestions and improving her work. She has always ensured that class and homework are satisfactorily completed. It is good to see that she has learned to write answers as per the command words given in the questions in an organized manner. However, it has been observed that she tends to struggle when multiple chapters are needed to be revised before assessment. Breaking down the chapter into smaller parts and going through them as per predetermined plan may help her feel less overwhelmed. It will be great if she develops her research skills using primary and secondary sources which will, in turn, help her perform better in attempting analytical questions. Besides, she is advised to work on time management skills. Overall, she has shown improvement and a positive attitude towards learning throughout the term and is appreciated for the same. Hindi: Avani is an active member of the class. She exhibits wonderful handwriting. She does her work on time. She has to focus on spelling while writing. Pronouncing the words (Uccharan) while writing will help her with the same. Overall, she meets grade level expectations. ICT: Avani has a good understanding of the topics covered in this term. She always remains focused, attentive, and responds well. She exhibits confidence while working on concepts related to Scratch. She is encouraged to keep up the good work. Wishing her all the very best in her future endeavours.
